Well, there was a decision made by the FCC to suspend Globalstar's ability to use their ancillary terrestrial spectrum for the purposes that it was being used by Open Range at the time or by any other any other lessee of the entity. So, nevertheless, I think the FCC granted a special temporary authority. So the impact was not one that was direct upon the operations of Open Range. It was able to continue to operate unimpeded, although it did cause some issues for them that they	3 4 5 6 7 8 9	were letting him know that should they be suspended that that that would be a decision that would basically result in our eliminating access to financing to Open Range. Q Okay. And you did receive a response to

 A Yes. MR. RANDOLPH: Let me just clarify. If there was an FCC decision made, you can talk about what the FCC decision was in response to your letter. The privilege attaches to matters that are predecisional and that reflect deliberations about what policy should be. So if Mr. Katzenstein or Mr. De Sa said to you, Administrator, we have decided the following, then you can reveal that information. THE WITNESS: Well, the decision was made by the FCC to provide for special temporary authority for Open Range to continue to use those licenses. BY MR. (Exhibit No. 88 was marked for identification.) BY MR. BARTELS: Q Let me hand you what's been marked as Exhibit 88. Can you identify this document? A Yes. Q Okay. Please identify it for the record. A It looks like it's an e-mail from Marshall Matz to some officials at the USDA, forwarding a copy of an e-mail from Bill Beans to me indicating their plans based on FCC decisions. Q Who is Marshall Matz? A Marshall Matz is a lawyer in town, at a law firm downtown. Q Is he a lobbyist? 	 Q And, again, what is his position? A He was the head of a strategic planning office at the FC7C. I think he still is. Q And he's sending this to you at RUS and to Paul at FCC, and saying: "After a great deal of internal discussion, I'm writing to unfortunately notify you both that Open Range will be closing down based on the FCC decision to issue only a 60-day STA," and then he continues on. At the bottom he says: "Paul - We are not sure how this FCC decision is in the public good, and I doubt rural America will see it that way." And this is after your letter to the chairman of the FCC? A Uh-huh. Q Is that correct? A Yes. Q Did you speak with Mr. Adelstein (sic) about his statement here that he was going to close down operations of Open Range? MR. RANDOLPH: He is Mr. Adelstein. MR. You know, if there is an issue, we will look at certain issues. Whether it's one pledged account or whether it's a broader audit depends on the circumstance of the borrower. Q Okay. What is your understanding as you sit here as to the number of audits that were conducted of Open Range by RUS field auditors? A The one I can recall is the one that was done at the end there, the one that you have	8 9 10 11 12	This witness has taken quite a bit of	148
